PROFESSIONAL SUMMARY

Results-driven **MERN Full Stack Developer** with hands-on experience in building scalable, user-friendly applications. Developed a full-featured E-commerce Store with **JWT/Email OTP authentication**, optimized performance, and responsive UI. Skilled in translating UI/UX designs into functional React.js applications and building secure REST APIs using Node.js/Express. Strong focus on clean code, maintainability, and collaborative development.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Redux Toolkit, Context API, Responsive Design

Backend: Node.js (Event-Driven), Express.js (REST APIs), JWT Authentication

Database: MongoDB, Mongoose (Schema Design & Optimization)

Tools: Git, GitHub, Postman, Debugging, VS Code

Deployment: Netlify, GitHub Pages, Render

CERTIFICATIONS & COURSEWORK

Full Stack Internship Certificate — NoviTech R&D Pvt. Ltd.

Aug 2024 – Nov 2024

- Built reusable React components following industry best practices for maintainability.
- Developed secure REST APIs using Node.js/Express with proper debugging and error handling.
- Completed modules covering full-stack workflows and Agile methodologies.

Full Stack MERN Program — Entri Elevate

Coursework Completed (Expected 2025)

- Practiced end-to-end web development: UI, backend logic, testing, deployment.
- Implemented authentication workflows and optimized schema/model structures.
- Gained experience invoking cloud deployment, debugging and performance tuning.

PROJECTS

Mobile Mania Store (E-commerce) — MERN, Redux Toolkit, Tailwind CSS [Live](#) — [Repo](#)

- Developed complete MERN E-commerce platform with **JWT & Email OTP authentication**.
- Integrated **Stripe Payment Gateway** and full order lifecycle with confirmation emails.
- Built Admin Dashboard with sales charts, product management, and order analytics.
- Managed complex global state using Redux Toolkit ensuring high responsiveness.

Task Management App — MERN, Tailwind CSS [Live](#)

- Designed responsive UI components with reusable Tailwind design patterns.
- Implemented CRUD operations with secure JWT authentication.
- Refactored modules for maintainability and deployed on Netlify/Render.

E-Library Management System — React.js, Tailwind CSS [Live](#)

- Built responsive components for browsing and searching books using mock data.
- Improved client-side performance with optimized search and filtering.
- Delivered scalable, maintainable code following Agile guidelines.

EDUCATION

B.Sc. Physics, Government Arts and Science College, Periyar University (2017)

Full Stack Web Development (MERN), Entri Elevate Program — Coursework Completed (Expected 2025)
